# JOSÉ MANUEL GONZÁLEZ RODRÍGUEZ

## DATA & MACHINE LEARNING ENGINEER

**Senior ML Engineer & Data Scientist (7+ years).** Delivering high-performance, customer-centric AI solutions. Entrepreneurial mindset with a strong background in academic and business environments.

### **Machine Learning Lead** at Minsait / Indra **February 2023 - Present [Madrid – Spain][IT]**

**SCOTTISHPOWER/IBERDROLA - RESPONSIBILITIES AND KEY ACCOMPLISHMENTS**

- Machine Learning Lead in projects for text extraction in documentation for renewable energy projects..
- Creating a solution using LLM's for data extraction inside the documents, with text extraction with OCR technologies.
- Using Docker and Kubernetes to encapsulate and containerize the solution for deployment in production.

**MAPFRE - RESPONSIBILITIES AND KEY ACCOMPLISHMENTS**

- Machine Learning Lead in cross-selling projects for insurance companies..
- Using IA & Machine Learning SOTA models for predictions and classifications, developing end-to-end pipelines.
- Design and creation of monitoring systems for benchmarking models and their results.

**ENDESA/ENEL SPAIN - RESPONSIBILITIES AND KEY ACCOMPLISHMENTS**

- Lead developer of 2 projects focused on predicting energy consumption and billing for large companies, respectively.
- Refactoring and maintenance of 3 projects, creating automations for their deployment and results visualization.
- Team Manager with a team made up of internal and external workers, multiplying the number of workers in less than a year.
- Proposing and implementing best practices in machine learning and Python, enhancing the reproducibility, portability and CI-CD.

**DRAGADOS - RESPONSIBILITIES AND KEY ACCOMPLISHMENTS**

- Lead of multiple cross-functional projects for data extraction, reducing 5 times the documentation handling time.
- Using Computer Vision for OCR and text parsing. Design and develop a ML pipeline from scratch. ETL process automation.
- Coach and advise the team to follow Agile principles and develop a MVP mindset, user-centered, while ensuring quality and knowledge sharing, resulting in new communication channels and daily shared knowledge by the whole development team.

**Tech Stack**

Python | Pandas | Docker | XGBoost |SciKit Learn | Gitflow | Tesseract | OpenCV | SciKit Learn | Azure | Bitbucket | Sql | Git |

### **Machine Learning Engineer & Data Scientist** at Sanz Clima **August 2021 - February 2023 [Madrid – Spain][Climatisation]**

**RESPONSIBILITIES AND KEY ACCOMPLISHMENTS**

- Develop projects for business solutions focusing on data, generating value for our clients based on the prediction and optimisation.
- Extract, clean, transform and launch large amounts of data, using AWS cloud services such as s3, Boto3, Athena, DynamoDB.
- Launch of an application with interactive dashboards, with a consumer-centric GUI, creating a key product for the sales department.

**Tech Stack**

Python | Leaflet | Pyspark | AWS | Athena | SageMaker | S3 | NoSql | SciKit Learn | Docker | Linux | Git | Flask |Knn | Kmeans |

### **Machine Learning & Data Scientist** at Ayscom **August 2020 - August 2021 [Madrid – Spain][Telecommunications]**

**RESPONSIBILITIES AND KEY ACCOMPLISHMENTS**

- Incrementing the number of data visualizations for our clients by 60%.
- Automation of data extraction processes, reducing the time required by 80%, from minutes to seconds.
- Creation of NLP-based data cleansing processes, moving from a manual to an automated process, increasing the performance.

**Tech Stack**

Python | Pandas | NLP | xml | Linux | CassandraDB | Sql | Grafana | SSH |

### **Data Analyst** at Sanitas **August 2017 - August 2020 [Madrid – Spain][Health insurance]**

**RESPONSIBILITIES AND KEY ACCOMPLISHMENTS**

- Extract, Transform and Process data information from our own company, developing informational presentations and visualizations.
- Creation of automated data extraction and pre-processing.
- Maintenance of a tidy database for the company's historical reports.

**Tech Stack**

Excel | Tableau | PowerBi |

## EDUCATION

### **Master in Data Science and Machine Learning** at Complutense University

**September 2019 – August 2020**

### **PHD in Developmental Psychology and Machine Learning** at Complutense University

**September 2017 - September 2020**
